

NATIONAL WEEKLY HEMP REPORT

The National Weekly Hemp Report is issued by USDA AMS Specialty Crops Market News. This report contains the weekly retail advertised prices for selected hemp commodities as well as total import volumes and values of all hemp commodities entering the U.S. for both the current week and for the year to date.

The retail ad total for this week was down 13% from last week but increased 137% over the same week last year. The number of items reported decreased by 2. The only 2 increases for the National region were for conventional hemp protein (16 oz.) at 7% and organic hemp seeds (8 oz.) at 2%. Decreases in the National region included conventional hemp seeds (8 oz.) at 30% and several organic items. Organic hemp seeds (12 oz. and 7 oz) decreased by 15% and 7% respectively while organic hemp oil (16 oz.) decreased by 2%. Remaining items, including those in the Alaska and Hawaii regions, were unchanged or did not appear last week and could not be compared.

Charts reflecting data from the USDA Domestic Hemp Production Program have been added to this report. This data will be updated and reported monthly to show changes in the number of hemp acres planted by month compared to last year, the end use of hemp grown as reported to FSA, and the number of hemp licenses issued by region. For questions about this data please contact farmbill.hemp@usda.gov.
