LIVESTOCK and POULTRY INVENTORY, JANUARY 1

NUMBER, VALUE, and CLASSES

The January 1, 1968 inventory of cattle and calves on farms and ranches is estimated at 108.8 million head, according to the Crop Reporting Board. This number represents a slight increase from the 108.6 million head on farms a year earlier. A 3 percent decrease in dairy cattle was more than offset by a 1 percent increase in beef cattle. The number of hogs and pigs on farms January 1 was 54.3 million head, an increase of 2 percent. The inventory of sheep and lambs at 22.1 million head was 7 percent under the previous year and the smallest inventory since records were started in 1867. The number of stock sheep and lambs declined 7 percent during 1967 while the number of sheep and lambs on feed was down 9 percent. The number of chickens on farms decreased 1 percent to 424.6 million head on January 1, 1968 while the number of turkeys decreased 7 percent to 7.3 million head.

Turkeys	6,360	6,905	7,817	7,289	93

1/ For more specific description see headings of tables by States. 2/ Included in cattle. 3/ Included in all sheep.

The Crop Reporting Board of the Statistical Reporting Service makes this report on numbers and value of livestock and poultry on farms (including ranches) as of January 1 for the United States, from reports furnished direct by livestock and poultry producers, reports collected with the assistance of the Post Office Department through the rural mail carriers and data assembled by field statisticians and cooperating State agencies. Livestock and poultry NOT on farms are excluded.

ACTING SECRETARY OF AGRICULTURE

ANNUAL LIVESTOCK AND POULTRY INVENTORY-JANUARY 1, 1968

(Continued from page 1)

The total value of livestock and poultry on farms and ranches January 1, 1968 was $18.7 billion, a decrease of 1 percent from the $19.0 billion a year earlier. Meat animals (cattle, hogs, and sheep) accounted for $18.2 billion of the total. The January 1, 1967 value of meat animals was $18.4 billion. The current value of the cattle inventory was $16.2 billion, virtually unchanged from the value for January 1, 1967. The value of hogs and pigs, at $1.6 billion was down 9 percent from the $1.8 billion a year earlier. Lower hog prices more than offset the 2 percent increase in inventory numbers. The value of all sheep at $425 million was down 10 percent. The poultry inventory value included chickens at $467 million and turkeys at $34.1 million, compared with $513.1 million and $40.1 million, respectively, a year earlier.

The January 1, 1968 index of livestock and poultry on farms and ranches in the United States was 112 percent of the 1957-59 average, the same as a year earlier. The index of meat animal numbers on farms (all cattle, hogs, and sheep) was also 112 percent, and unchanged from a year earlier. For milk animals, which are included with meat animals, the index was 69 percent, down 3 points from a year earlier. The index of poultry numbers was 112 percent, down 2 points from a year earlier.

CATTLE: On January 1, 1968 the number of all cattle and calves on farms and ranches in the Nation totaled 108,813,000 head, up slightly from the 108,645,000 head a year earlier. Although total inventory remained at about the same level, dairy stock declined for the 14th straight year.

Cattle and calves on hand increased from a year earlier in 27 States, while 15 States decreased and 8 States had no change. The largest increase was 7 percent in Kentucky, and the sharpest reduction was 7 percent in North Dakota. The North Central Region was down 1 percent while all other regions showed no change or slight increases.

Milk cows and heifers 2 years old and older totaled 14,662,000 head, a decrease of 4 percent from a year earlier. The downward trend in milk cow numbers started in 1955 and has reached the lowest point since 1888. The number of dairy replacement heifers 1 to 2 years old at 3,566,000 head, was down 2 percent from January 1, 1967. Heifer calves kept for milk cow replacements also decreased 2 percent to 4,003,000 head.

The number of other cattle (all cattle except milk cows and dairy replacement heifers) is estimated at 86,582,000 head, an increase of 1 percent. Cows and heifers 2 years old and over, other than those being kept for milk, increased 2 percent to 35,300,000 head. There was also an increase of 2 percent in the number of other heifers 1 to 2 years old, which totaled 9,312,000 head on January 1, 1968. The number of steers 1 year old and older was 12,568,000 head, down 1 percent. Bulls 1 year old and over totaled 1,895,000 head, up 1 percent from a year earlier. The number of other calves at 27,507,000 also increased slightly. Of these other calves, 42 percent are heifer calves with the remaining 58 percent steer and bull calves.

The January 1, 1968 cattle inventory includes 11,451,000 head on feed for slaughter market in the 39 feeding States, 2 percent above a year earlier. The number on feed in Western States was up 1 percent and the number on feed in the North Central States was about the same as a year earlier. The number in the remaining States was up 12 percent.

Imports of live cattle from Canada and Mexico totaled 751,726 head during 1967 compared with 1,099,914 head in 1966.

The total value of cattle and calves on farms and ranches January 1, 1968, was a record $16,183 million, slightly higher than a year earlier. This increase was the result of a slightly higher inventory as the average value per head was unchanged at $149. The value of milk cows and heifers 2 years old and older totaled $3,679 million on January 1, 1968, down 2 percent from a year earlier. The average value per head for milk cows was $251 compared with $247 a year earlier.

HOGS: The number of all hogs and pigs on farms and ranches in the United States on January 1, 1968 is estimated at 54,263,000 head, 2 percent more than a year earlier, and about average.

Inventory numbers of hogs declined 1 percent in the North Atlantic region and 2 percent in the East North Central region but increased in all other regions. The largest increase--9 percent--was in the South Central region. The South Atlantic region was up 6 percent while the West North Central and West were each up 2 percent. Iowa, which accounts for around one-fourth of the U. S. total, had about 1 percent more hogs on hand on January 1, 1968 than a year earlier.

The total value of hogs on farms January 1, 1968 was $1,611 million, 9 percent less than the $1,770 million a year earlier. A drop in value per head more than offset a 2 percent increase in numbers. The January 1, 1968 average value per head of $29.70 compares with $33.20 a year earlier and the record of $45.20 two years earlier.

SHEEP: The number of stock sheep on farms and ranches continued to decline. The January 1, 1968 total of 19,184,000 head was 7 percent below a year earlier and the lowest January 1 number since records were started in 1867.

Sheep and lambs on feed for slaughter market on January 1, 1968 totaled 2,938,000 in the 26 principal sheep feeding States--a decline of 9 percent from January 1, 1967. Stock sheep plus sheep and lambs on feed totaled 22,122,000 head--7 percent less than on January 1, 1967.

All classes of stock sheep declined during 1967. The number of ewes 1 year old and older on January 1, 1968 was 15,335,000 head--5 percent below January 1, 1967. Rams 1 year old and older totaled 591,000 head--a reduction of 8 percent from a year earlier. Wethers 1 year old and older declined 24 percent to 117,000 head. Ewe lambs totaled 2,568,000, down 13 percent and ram and wether lambs totaled 573,000, down 17 percent.

Stock sheep numbers in the 11 Western States plus Texas and South Dakota totaled 14,081,000 head, a decline of 7 percent from January 1, 1967. Numbers declined in all States except Idaho which was unchanged. Ewes 1 year old and older on hand January 1, 1968 totaled 11,202,000 in these 13 States, down 5 percent from a year earlier.

The January 1, 1968 number of stock sheep in the 35 Native States was 5,076,000 head, a decline of 7 percent. All Native States except Connecticut declined or remained unchanged compared to a year earlier. Ewes 1 year old and older in the Native States declined 6 percent.

The January 1, 1968 value of stock sheep on farms and ranches totaled $367 million, 10 percent less than a year earlier. The value per head was $19.20, compared with $19.70 on January 1, 1967.

GOATS: The estimated number of goats and kids on Texas farms and ranches January 1, 1968 was 3,691,000 head, 7 percent below the 3,969,000 on hand a year earlier. The inventory value of Texas goats totaled $18.1 million compared with $20.6 million for January 1, 1967. The average value per head this January 1 was $4.90, down 30 cents from a year earlier.

CHICKENS: The number of chickens on farms January 1, 1968 (excluding commercial broilers) is estimated at 424,550,000, a decrease of 1 percent from January 1, 1967.

The number of hens and pullets of laying age totaled 329,384,000 birds, compared with 324,809,000 a year earlier--an increase of 1 percent. Increases in layers by regions were 7 percent in the West, 5 percent in the South Atlantic, 2 percent in the East North Central, and 1 percent in the South Central. Numbers were down 5 percent in the West North Central and 2 percent in the North Atlantic. The number of hens 1 year old and older on farms January 1, 1968, at 137,938,000 head, was down slightly.

The number of pullets 3 months old and older not of laying age totaled 44,352,000 on January 1, 1968, down slightly from a year earlier. Pullets under 3 months old totaled 43,763,000--a decrease of 16 percent. The number of other chickens on hand January 1, 1968 was 7,051,000, a decrease of 5 percent. The number of egg-type chicks hatched in the 3-month period July through September 1967 was down 4 percent from a year earlier, and the hatch in October-December 1967 was down 21 percent.

The total value of all chickens (excluding commercial broilers) on farms January 1, 1968 was $467 million compared with $513 million on January 1, 1967. The value per bird averaged $1.10 compared with $1.20 a year earlier.

TURKEYS: The number of all turkeys (excluding turkey fryers) on farms January 1, 1968 is estimated at 7,289,000 birds, 7 percent below a year earlier, but 15 percent above average.

Turkey breeder hens totaled 3,439,000 head, down 17 percent from a year earlier. The number of breeder hens was below a year earlier in all regions, as follows: West, down 22 percent; East North Central, 17 percent; North Atlantic, 16 percent; South Central, 15 percent; West North Central, 14 percent; and South Atlantic, 13 percent.

Of the January 1, 1968 number of breeder hens 3,045,000 were heavy breeds, a decrease of 17 percent from the 1967 inventory. Light breeder hens totaled 394,000, a decrease of 20 percent from the 493,000 on hand a year earlier.

Heavy breed turkeys tested for pullorum disease from July 1 through December 1967 was 25 percent below the same period a year earlier. Light breed turkeys tested for the same period were down 32 percent.

In early January, growers intended to raise 14 percent fewer turkeys in 1968 than in 1967. They planned to decrease heavy breeds 15 percent and light breeds 10 percent.

The January 1, 1968 value of all turkeys on farms totaled $34.1 million compared with $40.1 million on January 1, 1967. The average value per turkey was $4.68 compared with $5.13 a year earlier.

Index Numbers of Livestock and Poultry, on Farms, United States
January 1, 1959-1968 1/
(1957-59 average = 100)

Year	Total livestock and poultry	Meat animals	Milk cattle 2/	Poultry 3/	Year	Total livestock and poultry	Meat animals	Milk cattle 2/	Poultry 3/
1959	102	102	95	101	1964	112	113	83	100

1963	110	110	87	99	1968	112	112	69	112

1/ For methods of combining species and weights in construction of these index numbers see Agriculture Handbook No. 118, Volume II, Major Statistical Series of the U. S. Department of Agriculture, September 1958. For the 1956 to date weights based on 1958-60 average sales values relative to milk cows two years old and older are: milk cows, 1.00; other cattle and calves, 0.77; hogs, 0.20; sheep and lambs, 0.08; workstock, 0.45; chickens, 0.0003; turkeys, 0.020. Workstock excluded beginning 1962. Excludes Alaska and Hawaii for 1961 and earlier years.

2/ For 1956 to date weights for milk cattle are: milk cows, 1.00; heifers, 1-2, 0.56; heifer calves, 0.34.

3/ Excludes commercial broilers.
