PRICES PAID BY FARMERS FOR SEED
APRIL 15 AND SEPTEMBER 15, 1962-78

This report is a summary of retail seed price statistics published in the April and September issues of Agricultural Prices from 1962 through 1978. These data supplement Statistical Bulletin No. 328 published March 1963 which contains prices from 1926 through 1961. Prices paid by farmers for 41 kinds, varieties, and species of seeds are included in the current bulletin. Some seeds were replaced by newer varieties during the period, and others were dropped from the estimating program.

The data for both April and September represent prices as of the 15th of the month. These seed prices were based on semiannual nationwide surveys of approximately 1000 retail seed dealers. The prices reported are for the grade and quality of each kind of seed most commonly sold to farmers.

Requests for copies of monthly Agricultural Prices; and questions or comments regarding these reports should be addressed to:
