Northeast	1	10,183	10,372											10,278
Appalachian	5	14,917	13,263											14,090
Florida	6	89,315	98,774											94,045
Southeast	7	14,430	16,777											15,603
Upper Midwest	30	17,457	18,455											17,956
Central	32	29,433	32,937											31,185
Mideast	33	15,683	17,974											16,828
California	51	77,164	95,586											86,375
Pacific Northwest	124	81,516	73,821											77,668
Southwest	126	130,443	129,460											129,951
Arizona	131	199,443	228,138											213,791
All Markets Combined <sup>1</sup>		21,163	23,219											22,191

<sup>1</sup> All markets combined weighted by producer pounds. <sup>2</sup> Simple Average is the simple average of data that is available at time of publication.

## **Methodology: Producer Receipts Report**

[Email us with accessibility issues regarding this report.](#)

[XML Format](#)

**Data Source:** Producer Receipts reports are created using information on the handling of milk obtained from Federal Milk Marketing Order personnel.

**Receipts of Producer Milk by Regulated Handlers** is the amount of producer milk in pounds that qualifies for pooling on each of the Federal Milk Marketing Orders each month. Each order has its own criteria that determines if a producer's milk is eligible to be pooled. Handlers must comply with these standards or the producer's milk is not eligible to be pooled on the Federal Milk Marketing Order. Regulated handlers, under certain circumstances and price relationships, may elect to not include certain quantities of producer milk that is eligible to be pooled on Federal Milk Marketing Orders. The All Markets Combined is the total of all the producer milk pooled for the month. The year-to-date and annual amount of receipts is the total of the monthly amounts.

**Average Daily Delivery of Milk Per Producer to Regulated Handlers** is the amount of producer milk pooled under each Federal Milk Marketing Order divided by the number of producers whose milk is pooled for that month for each Order and then divided by the number of days in the month. The All Markets Combined is the monthly total of milk pooled divided by the total number of producers whose milk is pooled for the month and then divided by the days in the month. The year-to-date is the simple average of the monthly data that is available at the time of publication. Once all monthly data becomes available at the end of each year the year-to-date amount is the annual simple average for all months for each Federal Milk Marketing Order.

**Reliability:** The AMS audit staff periodically perform on-site audits on the amounts of producer milk pooled to ensure accurate reporting of pool, milk components, and other milk price information.

## Information Contacts

Listed below are the specialists in the Agricultural Marketing Service, Dairy Program, Market Information Branch to contact for additional information. E-mail inquiries may be sent to [dpp@usda.gov](mailto:dpp@usda.gov).
