Compared to last week: Feeder steers 600-899 lbs sold steady to 5.00 higher in a narrow comparison. All other weights of steers were too lightly tested to develop an accurate market trend, however higher undertones were noticed. The best test for feeder heifers was for 650-699 lbs which sold 3.00-7.00 higher, all other weights were too lightly tested either this week or last to develop an accurate market trend, however higher undertones were noticed. Quality this week was average to attractive. Several load lots were seen this week and these were met with mostly good demand. Demand overall was moderate to good for moderate offerings. Flesh conditions were mostly light to moderate. Very few fleshy offerings were seen this sale despite a large run of backgrounded offerings. Market activity this week was mostly active with many bidders actively bidding on offerings. Weigh up cows sold on mostly moderate to good demand for light to moderate offerings. Packers continue to be aggressive as they bid on offerings for immediate harvest. Packer buyers purchased most of the cow offering for immediate harvest, with the exception of a few high quality young cows they purchased to feed. Slaughter cows were too lightly tested last week to develop an accurate market trend, however steady to higher undertones were noticed. Feeding cow buyers picked around the edges this sale as they tried to buy a few cows away from packers. Feeding cows were too lightly tested last sale to develop any market trend. Weigh up conditions started the day mostly above average for buyers, however with warmer weather seen in the afternoon many cows showed excess fill as the day progressed. Slaughter bulls were too lightly tested last week to develop an accurate market trend, however higher undertones were noticed. Young age cows suitable to feed or re-breed sold on mostly moderate to good demand. Offerings were too lightly tested last week to trend, however higher undertones were noticed. Supply included: 69% Feeder Cattle (56% Steers, 42% Heifers, 2% Bulls); 15% Slaughter Cattle (91% Cows, 9% Bulls); 16% Replacement Cattle (95% Stock Cows, 5% Bred Cows).
