TURKEYS AND CHICKENS TESTED
IN MAY 1961

ALBERT R. MANN
LIBRARY

MAR 26 1963

June 19, 1961

Turkeys Tested

The number of turkeys tested for pullorum disease during May 1961, while seasonally light, was up 4 percent from May 1960. Increases in testings were 64 percent in heavy white breeds and 4 percent in light breeds. Only 4,576 other heavy breeds, mostly broad-breasted bronze, were tested in May, compared with 20,935 in May 1960. Heavy white breeds tested totaled 47,087, compared with 28,643 in May 1960. Testings of all heavy breeds during May totaled 51,663 compared with 49,578 in May 1960.

Testings of all heavy breeds July 1960 through May 1961 at 4,085,580 were up 36 percent from this period a year earlier--testings of heavy white breeds were up 60 percent and other heavy breeds were up 26 percent.

Testings of light breeds during May totaled 22,559 compared with 21,643 in May 1960. Testings of light breeds for the period July 1960 through May 1961, totaled 460,664, up 14 percent from these months a year earlier.

Testings of turkeys, all breeds, for the 11 months period July 1960 through May 1961 totaled 4,546,244, compared with 3,403,560 during this period a year earlier--an increase of 34 percent. The testing of turkeys is now in the low period of the annual cycle.

Chickens Tested

During May 1961 testing of chickens for supplying broiler-chick hatching eggs totaled 1,590,539, up 18 percent from May 1960. Testings July 1960 through May 1961 at 24,749,458 were up 9 percent from this period a year earlier.

Chickens tested in May for supplying eggs for hatching egg-type chicks totaled 231,245, up 15 percent from May 1960. For the period July 1960 through May 1961, testings totaled 10,805,175, compared with 11,884,313 during this period a year earlier--a decrease of 9 percent.

This report is made possible through the cooperation of the National Poultry Improvement Plan and National Turkey Improvement Plan official State agencies, the Animal Husbandry Research Division, Agricultural Research Service, and the Agricultural Estimates Division, Statistical Reporting Service.
