Minnesota	15	Wisconsin	13

These 1958 and 1959 county estimates of acreage, yield, and production of soybeans harvested for beans as prepared by the respective State Agricultural Statisticians are a breakdown of the latest official State estimates.

Although soybean production is estimated in 30 States, the 24 States for which county estimates are shown comprise about 99 percent of the 1959 U. S. total production. Counties are grouped by crop reporting districts.
