The whey protein concentrate 34% (WPC 34%) price range and mostly series moved higher this week. Domestic WPC 34% demand remains strong while inventories continue to tighten. Contacts note WPC 34% processing activity remains very light as whey solids continue to be diverted into WPC 80% and whey protein isolate production. Some contacts relay feed grade WPC 34% is slightly more available than in recent weeks.

The DMN monthly average of the mostly price series for whey protein concentrate 34% in February was \$ 1.6982, compared to \$ 1.5707 one month ago.

Prices for: Central and Western U.S., All First Sales, F.O.B., Extra Grade, Conventional, and Edible Whey Protein Concentrate

Price Range - 34% Protein; \$/LB:	1.7400 - 1.8200
