Summary of State and Regional Cold Storage Holdings
for 1950

INTRODUCTION

This is the fifth in a series of yearly summaries of cold storage holdings. The Summary of State and Regional Cold Storage Holdings for 1950 lists monthly stocks of various commodities by 9 geographic regions and monthly holdings of selected dairy and poultry products by States. The purpose in compiling the 12 monthly Cold Storage Reports into an annual summary is to provide a ready reference for those interested in holdings of foodstuffs in refrigerated warehouses in the United States. Data for this report were collected from public, private, and semiprivate warehouses, apple houses, and meat-packing plants. Commodities in space owned or leased and operated by the armed services were not reported. Additional copies of this publication may be had on request while the supply is available from:
