SUMMARY OF REGIONAL COLD STORAGE HOLDINGS, 1955

Introduction

This is the ninth in a series of annual summaries of regional cold storage holdings. The series began in 1946; there was no summary for 1951. In this publication, end-of-month stocks of various commodities are listed according to their geographic distribution during the 1955 calendar year. The purpose of this summary is to provide a ready reference for those interested in the national holdings of foodstuffs reported each month in the Cold Storage Report. Data for those monthly reports are collected from public, private, and semiprivate warehouses, which include specialized warehouse facilities such as fruit houses and meat-packing plants. Commodities in space owned or leased and operated by the Armed Services are not reported. While the supply lasts, additional copies of this publication may be had upon request to:
