CONTENTS

	Page
Part I. Regional cold storage holdings, 1947, by months --	
Fresh, canned, and dried fruits and vegetables.....	2-4
Nuts and nutmeats.....	5
Frozen fruits and vegetables.....	6-19
Dairy products.....	20-24
Eggs and poultry.....	25-26
Meats and meat products.....	27-33
Part II. Regional cold storage holdings, 1943-47 average, by months --	
Fresh fruits.....	34
Dried fruits, frozen fruits, and vegetables.....	35-43
Dairy products.....	43-45
Eggs and poultry.....	45-46
Meats and meat products.....	47-50
Seasonal movement charts --	
Frozen fruits.....	6
Frozen vegetables.....	6
Creamery butter.....	21
Cheese.....	21
Frozen poultry.....	22
Shell eggs.....	22
Meats.....	27
Lard and rendered pork fat.....	27

Data for this report are collected from public, private,
and semiprivate warehouses, apple houses and meat-packing
plants. Commodities in space owned or leased and operated by
the armed services are not reported.

Summary of 1947 Cold Storage Holdings

During 1947 the average occupancy of public cold storage warehouses was the third highest on record. The average occupancy of cooler space was 70 percent as compared with an average of 73 the preceding year. Average freezer occupancy for 1947 was 80 percent, as compared with 84 in 1946. The annual peak in cooler occupancy in public houses occurred in December, at which time coolers were 78 percent filled. The high point in freezer occupancy--86 percent--occurred at the beginning of the year. The average first-of-the-month weight of food in storage in all houses--public, private, and semiprivate--during 1947 was 3.7 billion pounds, as compared with 3.4 billion pounds in 1946. Average storage holdings during 1947 were the highest on record, even exceeding by a small margin the stocks during 1944, the peak storage year of the war. Stocks of shell eggs were the lowest at the peak in 1947 that they have been for any annual peak. Holdings of frozen fowl, frozen ducks, and frozen turkeys reached their all-time record high during 1947. During the year frozen lima beans, cauliflower, peas, pumpkin, and squash also established all-time record highs.

Fruits and Vegetables

The 1947 peak stocks of apples--36 million bushels--were the second highest on record. Pear holdings at the October peak were about $1\frac{1}{2}$ million bushels below those of 1946, the record high. Storage stocks of frozen fruits and vegetables, which had been progressively increasing since the establishment of this industry, were lower during 1947. At the annual peak in 1947, only 753 million pounds of these frozen foods were in refrigerated warehouses, as compared with 861 million pounds in 1946. As indicated above, however, the accumulations of certain frozen vegetable items in warehouses during 1947 represented all-time record highs.

Dairy and Poultry Products

Except for cheese, stocks of dairy and poultry products were below 1946 levels during the 1947 period. Cream (fluid and plastic), 70 million pounds at the annual peak, was 45 million pounds below the 1946 peak. Butter stocks at the 1947 peak totaled 88 million pounds, which was slightly above the 1946 peak; but the average first-of-the-month stocks for 1947 were below the 1946 levels because of abnormally low holdings during the first half of the year. Cheese stocks during 1947 were about average. Shell egg holdings averaged 1.9 million cases less than the 1943-47 average. Holdings of dried and frozen eggs, however, were sufficiently high that the average first-of-the-month total case equivalent of all eggs was only 1.7 million cases below that of 1946. Average holdings of poultry--240 million pounds--were slightly below the 1946 average.

Meat and Meat Products

During 1947, for the third consecutive year, the first-of-the-month average meat stocks were below normal. The annual 1947 high for holdings of beef was 191 million pounds and for holdings of pork was 399 million pounds as compared with 179 million and 427 million pounds for these items, respectively, the previous year. While peak pork stocks were below the 1946 level, pork holdings on the average were above 1946 stocks. Average holdings of lard during 1947--126 million pounds--were more than double the average stocks of lard during 1946.

Note: Regions as used in this report are comprised of the following States: NEW ENGLAND: Maine, N. H., Vt., Mass., R. I., Conn.; MIDDLE ATLANTIC: N. Y., N. J., Pa.; EAST NORTH CENTRAL: Ohio, Ind., Ill., Mich., Wis.; WEST NORTH CENTRAL: Minn., Iowa, Mo., N. Dak., S. Dak., Nebr., Kans.; SOUTH ATLANTIC: Del., Md., Va., W. Va., D. C., N. C., S. C., Ga., Fla.; EAST SOUTH CENTRAL: Ky., Tenn., Ala., Miss.; WEST SOUTH CENTRAL: Ark., Okla., La., Tex.; MOUNTAIN: Mont., Idaho, Wyo., Colo., N. Mex., Ariz., Utah, Nev.; PACIFIC: Wash., Oreg., Calif.
