

FLUID MILK AND CREAM REPORT

JANUARY 1969

Release:
January 21, 1969
3:00 P. M. (EST)

MILK PRICE AND SALES HIGHLIGHTS

January prices paid by dealers for milk used for fluid purposes (Class I) averaged \$6.65 per hundredweight for about 170 markets. This was unchanged since October but 32 cents above January 1968. Regional averages for January ranged from 2 to 55 cents above January 1968, according to the Crop Reporting Board.

Store prices to consumers in 25 cities in early January averaged 54 cents per half gallon for the most common grade of whole milk. This was $\frac{1}{2}$ cent above December and more than 2 cents above January 1968. Home-delivered half gallons for the 25 cities averaged 61 cents in January 1969--up slightly from December and $3\frac{1}{2}$ cents above January 1968. The home-delivered prices are list prices before deductions for quantity discounts.

Preliminary data on total sales of fluid products for November 1968 in about 70 marketing areas averaged about 2 percent above a year earlier. Revised October sales were 3 percent above a year earlier--October 1968 had one less Sunday than 1967.

PRICES IN FLUID MILK MARKETS

New England: Dealers' Class I prices averaged \$7.30 per hundredweight in early January--unchanged from December but 52 cents above January 1968. Consumer prices held at December levels in nearly all reporting markets.

Middle Atlantic: Class I milk prices averaged \$7.19 per hundredweight in early January--unchanged since October 1968 but 55 cents above a year earlier. Except for changes in price ranges, consumer prices held at December levels.

East North Central: Dealer prices for fluid-use milk averaged \$6.06 per hundredweight in early January 1969--unchanged since October but 18 cents above January 1968. Except for changes in price ranges, both store and consumer prices were at December levels.

Effective January 1969, several changes have been made in tables carried in the Fluid Milk and Cream Report. Prices paid by consumers for half gallons of low-fat and skim milk are now reported in the same table with whole milk prices. The quart prices series of whole milk has been discontinued because it is of minor importance in most markets.

West North Central: Dealers' Class I prices averaged \$6.00 per hundredweight in early January 1969--unchanged since October 1968 but 30 cents above a year earlier. Out-of-store and home-delivered milk prices continued mostly at December levels.

South Atlantic: Class I milk prices paid by dealers in early January averaged \$7.05 per hundredweight--unchanged from a month earlier but 31 cents above a year earlier. Except for changes in price ranges, consumer prices were mostly at December levels.

East South Central: Dealer prices for Class I milk averaged \$6.60 per hundredweight in early January--unchanged since October but 13 cents above January 1968. Prices to consumers held at December levels in most markets.

West South Central: Class I milk prices averaged \$7.25 per hundredweight in early January--unchanged since October but 29 cents above January 1968. Except for changes in price ranges, consumer prices held at December levels.

Mountain: Dealer prices averaged \$6.60 per hundredweight for fluid-use milk in early January--unchanged since November but 29 cents above January 1968. Consumer prices continued near December levels.

Pacific: Class I prices paid by dealers averaged \$5.87 per hundredweight in early January--unchanged since November and 2 cents above a year earlier. Consumer prices, both out-of-stores and home-delivered, continued at December levels.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Total fluid items: For October, total sales of fluid products were 3 percent above a year earlier. October 1968 had one less Sunday than in 1967. The sales data represent about 70 marketing areas.

Whole milk: Sales of whole milk during October were about 1 percent above a year earlier.

Low-fat and skim milk: October sales of low-fat and skim milk items averaged 16 percent above a year earlier.

Milk and cream mixtures: Sales of mixtures (mostly half and half) were down about 2 percent from October 1967.

Cream items: Cream sales during October were down 3 percent from a year earlier.

Milk receipts: November 1968 receipts of milk from producers at plants regulated for about 70 marketing areas were up about 2 percent from a year earlier. The number of producers delivering milk to plants, for the same markets, was down 5 percent from November 1967.

Milk production: December 1968 milk production for the United States was estimated at 9,220 million pounds--down 1 percent from a year earlier and the smallest December production since 1955. Preliminary estimates of annual milk production for 1968 totaled 117.8 billion pounds--down about 1 percent from the 1967 total.

^{1/} Regional and U.S. average based on prices for individual markets weighted by population. Prices for Federal-order markets include prevailing premiums above minimum Class I prices, as reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 6.

^{2/} Revised.

- ^{1/} Federal order market unless footnote indicates otherwise.
^{2/} Premium above Federal order minimum, as reported by principal producers' association. May not apply to all Class I milk.
^{3/} Includes Class I premium where reported.
^{4/} Fat differential per cwt. for each 0.1% plus or minus variation from a fat test of 3.5%.
^{5/} Prices may be subject to quantity discounts.
^{6/} Prices in paper containers usually $\frac{1}{2}$ to 1 cent per quart higher than glass.
^{7/} State-regulated minimum prices to both dealers and consumers. Class I prices announced at basic fat test of 4.0% for South Carolina and Louisiana have been adjusted to 3.5% fat.
^{8/} State-regulated minimum price to dealers.
^{9/} Class I prices regulated under Federal order. State-regulated minimum prices to consumers.
^{10/} Unregulated market.
^{11/} Differential for preceding month.
^{12/} New York-New Jersey Federal Order Minimum for 201-210 mile zone plus estimated freight (36¢) and country handling charges (25¢).
^{13/} Not determined.
^{14/} State-regulated minimum price prevails over Federal order minimum.
^{15/} Includes following service charge for first unit of each home delivery: Sacramento = 4¢; San Francisco = 3¢.
^{16/} December 1968 same as January 1969.
^{17/} December 1968 revised: half gallons-47¢; gallons-79¢.
^{18/} November and December 1968 same as January 1969.
^{19/} January-December 1968 revised. Same as January 1969.
^{20/} California price per cwt. based on 3.5 percent fat and 8.622 percent solids-not-fat--fat differentials comparable with other markets are not available.
g.-glass. p.-paper. P.-Plastic.

1/ Data for Federal order markets compiled by Dairy Division, C&MS, USDA, from reports by market administrators. Data for State-regulated markets compiled by milk control agencies. Data are revised for the year-earlier month, preliminary for the last 2 months shown; all months adjusted to a comparable basis where marketing areas have been changed. 2/ Federal order market unless footnote indicates otherwise. Markets combined in each group are listed on page 26. 3/ Data from State milk control agency. 4/ Delaware Valley less sales in New Jersey as reported by N. J. Office of Milk Industry.

Footnotes continued on page 24.
