Direct Hay Weighted Average Report for week ending 8/29/2025

Compared to two weeks ago all reported hay sales sold steady. Demand was light. Quite a lot of hay sitting around in various locations of the state. Some areas are wet with little pockets of the state very dry. But, on the bright side, those dry areas do have some top-quality hay for sale that doesn't have any damage from rain. Seems like always some sort of trade off in the agriculture world.

Alfalfa guidelines (for domestic livestock use and not more than 10% grass)
